

Header  
Same on every page.

*Idea !*

*Instead of an image, a simple rectangle with the same background as the page we're currently on (i.e. The background color of the menu button).*

*For each page, the quotation of Zamenhof in Esperanto and its translation in a different language:*

*Kiam la popoloj povos libere sin kompreni, tiam ili ĉesos reciproke sin malami.*

- 1. English
- 2. French
- 3. Spanish
- 4. Dutch

*There should be a simple but nice animation for this rectangle.*

Main content area.  
Different for each page.

Footer  
Same on every page.
